

Name: _____

Teacher (*circle one*): **MURPHY** or **WEIR** Block: _____

Element NAME: _____

Element ATOMIC NUMBER: _____

Room number where project is posted (*circle one*): **169** or **170** or **171**

Periodic Table Poster Project GRADING RUBRIC

Parameter	Not Present? (if parameter is met, space will be left blank)
3/16" foam board cleanly cut (no ragged edges)	
¼" solid, straight black border	
3/16" foam board <i>exactly</i> 8 ½" x 11"	
Multiple colors used (many should be used)	
Technology used for design (no handwriting of any kind)	
Minimum blank space in background (NOTE: <i>THIS IS A CRITICAL COMPONENT!</i> You do NOT want very much blank space showing. You want to use the whole board!)	
Symbol correct color for phase and easy to read from a distance	
All data included is correct (no errors)	
Correct placement of name, symbol, atomic number, atomic weight and easy to read from a distance	
Last series electron configuration correct and in proper location under element symbol with superscripts	
Correct and complete student information in lower right in size 12 font	
Multiple 3D objects attached to board (MINIMUM OF FOUR DIFFERENT OBJECT)	
Dolorful, creative, obvious care put into project	
Neatness, attention to detail	
Interesting information about the element (<i>at least 5</i> interesting facts BUT to get full credit, should have many more)	
<i>Score on project (out of 50 possible)</i>
